

## Forklift Rotators

Rotator for Forklifts - There are different applications available for lift truck attachments. For example, the lift truck rotator can help lifting, moving and rotating drums and barrels. Other attachments could be used to pick up cartons and carpet rolls, for dumping sand or waste materials. Several of the most commonly used forklift attachments are the rotator, clamp, side shifter accessories and fork positioner. These tools come in different measurements to fit a variety of forklift units. They are meant to hold heavy things and are an advantage to lots of warehouse and factory surroundings.
